

CENTER OF EXCELLENCE CHEMICAL PARK BITTERFELD-WOLFEN

Chemiepark Bitterfeld-Wolfen GmbH | Zörbiger Straße 22 | 06749 Bitterfeld-Wolfen

HERE BUSINESS MEETS SCIENCE.

Expertise and experience

“The world of chemistry. Chemistry for the world” - this is the claim of the companies at the Chemical Park Bitterfeld-Wolfen, which, at 1,200 hectares, is one of the largest areas for chemical and pharmaceutical companies in Germany. These companies include global players such as Bayer, Nouryon and Evonik. The foundation for the chemical industry was laid here 125 years ago - today there is a self-sufficient network of national and international groups, SMEs and start-ups.

The profile of the Bitterfeld-Wolfen Chemical Park is characterised by chlorine chemistry, speciality chemicals and fine chemicals as well as pharmaceutical and high-tech products. More than 300 companies with over 12,000 employees represent a wide range of suppliers, service providers and potential partners. Additionally, there is a Technology and Start-up Centre ready to provide support for initial settlement steps or start-ups.

Patrice Heine, Managing Director of Chemiepark Bitterfeld-Wolfen GmbH

“At the Bitterfeld-Wolfen Chemical Park, the companies can concentrate on what they do best: chemistry. In line with the outstanding infrastructure, the companies find a comprehensive range of nearby services, tailored to the needs of the chemical industry.”
