

CENTER OF EXCELLENCE CHEMICAL AND INDUSTRY PARK ZEITZ

Infra-Zeitz Servicegesellschaft mbH | Hauptstraße 30 | 06729 Elsteraue

HERE BUSINESS MEETS SCIENCE.

Green chemistry instead of brown coal

Something that sounds like a paradox is being implemented by companies settled in the Chemical and Industry Park Zeitz: “green chemistry”. The park has committed itself to sustainability, which means the industrial use of **renewable resources**.

The site is also characterised by its **internationality**: companies from China, Italy, Ukraine and the USA have settled here – including major industrial and large-scale as well as small, medium-sized companies. The use of solar power, the methane production of the bio-refinery, and the reprocessing of used oil are just a few of the highlights to be found here. “Green chemistry” plus internationality – clearly a center of excellence.

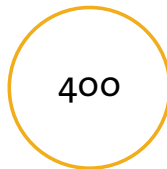

Arvid Friebe, Managing Director of Infra-Zeitz Servicegesellschaft mbH

“Without doubt the Chemical and Industrial Zeitz is a beacon for the region. Our chemical park is medium-sized, independent, open, international and sustainable – a little more every day. In a few years, ‘green chemistry’ will be established around the world. This is already being affirmed by the kinds of plants settled here.”
