

CENTER OF EXCELLENCE VALUEPARK®

ValuePark® Dow Olefinverbund GmbH | PF 1163 | 06201 Merseburg

HERE BUSINESS MEETS SCIENCE.

Since 1998, the name ValuePark® has stood for the industrial park concept of Dow Olefinverbund GmbH, a subsidiary of the international chemical group Dow. The 26 companies now settled here include international plastic manufacturers, plastics-processing companies, logistics and service providers, and also renowned research institutions.

The ValuePark® offers an ideal range of infrastructure. Products manufactured predominantly on site are supplied "just in time", without it being necessary to have one's own raw materials warehouse. In addition, the factory premises in Schkopau and Böhlen have very good transport links. The ValuePark® offers excellent conditions for investors who are interested in a long-term and cost-efficient production site.

Kepa Diaz de Mendibil, Chairman of the Board of Dow Olefinverbund GmbH

"The ValuePark® is embedded in a regional environment with ideal conditions for the chemical industry. The combination of industrial production and practically oriented research is unique in the field of plastics chemistry, and an invaluable advantage of the site for the development of innovative products."
