

HERE BIOECONOMY IS SCALED FOR MARKETS.

SUSTAINABLE ECONOMIC GROWTH requires the responsible use of resources. This is a reality in Saxony-Anhalt: more than half of gross electricity produced in the state comes from renewable sources of energy. As a long standing location for the nutrition, chemicals, wood/cellulose and agricultural economy, we have excellent knowledge also of renewable resources and biotechnology processes as the basis for industry, energy and nutrition. HERE is where we have understood the cycles of nature, think ‚bioeconomic‘ and thereby are scaled for success.

EXPERTISE AND RAW MATERIALS

GOOD REASONS – THE STRENGTHS OF SAXONY-ANHALT AS A LOCATION FOR THE BIOECONOMY

EXCELLENT LOCATION FOR TECHNOLOGY AND ENGINEERING

LONG-STANDING LOCATION FOR WOOD/CELLULOSE AND THE AGRICULTURAL ECONOMY

INNOVATION LOCATION FOR THE CHEMICAL INDUSTRY WITH 5 CHEMICAL PARKS

SCALE-UP EXPERTISE: FROM LABORATORY SCALE TO PILOT SCALE

HIGH PERFORMING AGRICULTURE AND FORESTRY

CENTRAL LOCATION, MODERN INFRASTRUCTURE, PROXIMITY TO SALES MARKETS

HIGH STANDARDS OF QUALITY AND SAFETY

BEST INVESTMENT CONDITIONS

LEADER IN QUALIFIED OCCUPATIONAL TRAININGS AND TRAINING STANDARDS.

UNIQUE RESEARCH DENSITY, INNOVATIVE AND COMPETITIVE LEADING TECHNOLOGIES

such as: Fraunhofer Institute for Factory Operation and Automation IFF, Fraunhofer Centre for Chemical and Biotechnology Processes CBP, Anhalt University of Applied Sciences, Martin Luther University of Halle-Wittenberg, Otto von Guericke University Magdeburg, Rottleberode Centre for Wood, Leibniz Institute of Plant Genetics and Crop Plant Research, High Performance Centre for Chemical and Bio-systems Technology.

“The bio-economy means innovation. Through the establishing of bio-based value-added chains on an industrial scale, we are starting on the next major wave of innovation. Through the pilot projects as part of the leading-edge cluster, we are creating the basis for the establishing of Central Germany as the model European region for the bio-economy.”

Prof. Dr. Matthias Zscheile | Managing Director of BioEconomy Clustermanagement GmbH

“We are specialists for the industrialisation of new biotechnology processes. Not only can we make use of the local conditions, but also the association of several specialist companies from Leuna, Bitterfeld and Zeitz for the further processing or derivatising of bio-based products. In this way, we can offer our customers entire packages from Saxony-Anhalt.”

Dr. Joachim Schulze | Managing Director of EW Biotech GmbH
