

Saxony-Anhalt at InnoTrans 2018

18.09.2018 - 21.09.2018

InnoTrans is the leading international trade fair for transport technology and takes place every two years in Berlin. Sub-divided into the five trade fair segments Railway Technology, Railway Infrastructure, Public Transport, Interiors and Tunnel Construction, InnoTrans occupies all 41 halls available at Berlin Exhibition Grounds.

Saxony-Anhalt will be present for the first time with a joint stand in **Hall 11.1, Booth 205** from 18th to 21st September 2018 at InnoTrans in Berlin.

At the joint stand of the federal state, small and medium-sized companies from Saxony-Anhalt present innovations and application examples in the area of sustainable energy production and energy supply. The state of Saxony-Anhalt offers an important support in this area to enable small and medium-sized enterprises to gain access to new markets.

With the organization of the joint stand of the federal state, an important economic contribution is made by implementing the entire preparation, execution and follow-up of the fair by IMG. The Investment and Marketing Corporation Saxony-Anhalt (IMG) is commissioned by the Ministry of Economic Affairs, Science and Digitalisation, and works with funds from the European Regional Development Fund (ERDF).

- SLV Halle GmbH
- TEGUMA GMBH
- Verkehrs Industrie Systeme GmbH

Mobility and Logistics in Saxony-Anhalt

Increasing global demand for mobility, the resulting infrastructure bottlenecks, growing environmental pressures and dwindling oil deposits require innovative, pioneering traffic solutions. Energy-efficient, low-emission vehicles, manufacturing technology and intelligent, multimodal traffic systems will define the future market.

With its high-performance supplier industry for automobile manufacturing and its application-oriented research, Sachsen-Anhalt has the competence to develop sustainable solutions.
