

Saxony-Anhalt at Intersolar Europe 2018

20.06.2018 - 22.06.2018

From 20th to 22th June 2018, Saxony-Anhalt will show **products and solutions for modern energy supply from renewable energies** at Intersolar Europe 2018 in Munich.

At the joint stand of the federal state in **Hall A3, Booth 560**, small and medium-sized companies from Saxony-Anhalt present innovations and application examples in the area of sustainable energy production and energy supply. The state of Saxony-Anhalt offers an important support in this area to enable small and medium-sized enterprises to gain access to new markets.

With the organization of the joint stand of the federal state, an important economic contribution is made by implementing the entire preparation, execution and follow-up of the fair by IMG. The Investment and Marketing Corporation Saxony-Anhalt (IMG) is commissioned by the Ministry of Economic Affairs, Science and Digitalisation, and works with funds from the European Regional Development Fund (ERDF).

Intersolar Europe is the world's leading trade fair for solar energy and its partners. The accompanying Intersolar Europe Conference deepens the topics of the fair, focusing on large-scale power plants, financing and intelligent networking.

The trade fair line-up of Intersolar Europe and the parallel ees Europe:

- Photovoltaics
- Energy storage
- Regenerative heat
- Products and solutions for Smart Renewable Energy
- Batteries and energy storage systems

We bundle news, stories and impression from Intersolar 2018 for you:

Energy meets Efficiency

European and global climate protection requirements and the sustainable handling of dwindling resources provide the industry with new challenges. The production of regenerative energy must be marketable. Industrial production processes must run flexibly and with an efficient use of resources.

Saxony-Anhalt is considered a leading federal state in the use of renewable energies and scores with an established advantage in technology when it comes to regenerative energy systems. In cooperation with intelligent uses of information and communication technology and innovative mechanical engineering, Saxony-Anhalt offers pioneering system solutions.
