## Hub for Transport and Logistic

Let's go! Saxony-Anhalt is located in the heart of Germany and in the middle of Europe. The conveniently situated transport connection guarantees short distances to markets and customers. Our state offers a unique interlocking of road, waterway, railway and airport. For years investors have appreciated the densest railway network in Europe and motorways which can cope with heavy cargo.

## Hub for Goods and Products

The state's 2,900 logistics companies booked a turnover of 2.7 billion euros in 2012 – and the trend is increasing. Something is moving here! For instance, the world's largest automated returns warehouse is located at the "Hermes Fulfilment" distribution centre in Haldensleben. And 3,000 employees handle 16,000 components every hour. Areas with outstanding transport connections such as the industrial & logistics centre in Rothensee are suitable for immediate development. The Finsterwalder CargoLine Group has settled in Halle (Saale) with a 250,000 m<sup>2</sup> logistics area, while the logistics service provider Arvato supports several major customers on its 40,000 m<sup>2</sup> area in nearby Landsberg.

## Facts

- Connection to pan-European transport routes: A 2, A 9, A 14, A 38, A 143
- International hub for air freight – Leipzig/Halle Airport: unlimited 24-hour operation, 365 days a year, for freight flights, two parallel runways
- One of the densest railway networks in Europe: around 2,300 km of track, 76 goods yards, marshalling yards at Halle (Saale) and Großkorbetha, train formation yard at Magdeburg-Rothensee
- One of the most modern waterway networks in Europe, with the Elbe, Mittelland Canal and Wasserstraßenkreuz (water bridge); Magdeburg Port is an interior hub for the sea ports
